Rep. Jim Jordan (R-OH) sent a letter to FBI Director Chris Wray on Wednesday regarding the investigation of the DC pipe bomber on January 5, 2021.

According to his letter, the FBI is withholding information to Congress and only dealing with partisan Liz Cheney's illicit Jan 6 Committee.

The whistleblower also revealed the Washington DC Field Office asked the FBI to canvass all of their numerous confidential human sources for information on the crime. So far the FBI has turned up nothing – which makes you wonder.

Chris Wray and the Stasi FBI has also refused any requests from Republican lawmakers on the matter. The FBI is solidly a criminal Democrat organization at this point.

Rep. Jordan, the Ranking Member of the House Judiciary Committee, sent the letter to dirty Chris Wray on Wednesday.

Dear Director Wray:

We have received a whistleblower disclosure from a senior FBI special agent concerning the investigation into the pipe bombs placed near the headquarters of the Democratic National Committee and Republican National Committee on January 5, 2021.¹ According to the special agent, on February 7, 2022—over a year after the placement of the bombs—the FBI's Washington Field Office asked FBI field offices to canvass all confidential human sources nationwide for information about the individual and the crime.² In part, the message asked that the canvass "include sources reporting on all [types of] threats" because the suspect's "motive and ideology remain unknown."³ The special agent explained that the WFO request was "unusual" because it was transmitted more than a year after the FBI had begun the investigation, and it raises questions about the progress and extent of the FBI's investigation.

In addition to this whistleblower disclosure, we have learned that the FBI has failed to sufficiently answer questions posed by Rep. Bill Posey about the status of the investigation. On September 2, 2021, Rep. Posey wrote to you requesting a briefing on the status of the pipe bomb investigation, citing concerns for his office's safety, for the residences of many Members of Congress, and for the public at large.⁴ The FBI, however, has not fully responded to Rep. Posey's request, explaining that it was exclusively providing information to the partisan Democrat-led Select Committee investigating the events of January 6, 2021.⁵

The FBI's decision to provide information on a partisan basis is antithetical to the FBI's purported impartiality and it further erodes public confidence in the FBI's senior leadership. The

Committee on the Judiciary is the FBI's authorizing committee, responsible for conducting oversight of the FBI's activities. To support Rep. Posey's request, and in light of the whistleblower disclosure we have received, we ask that you direct your staff to provide a briefing to the Committee and Rep. Posey about the status and extent of the pipe bomb investigation.

Please provide this briefing as soon as possible, but no later than March 23, 2022. In addition, we remind you that whistleblower disclosures to Congress are protected by law and that we will not tolerate any effort to retaliate against whistleblowers for their disclosures. Thank you for your attention to this important matter.

Sincerely,

Jim Jordan

As previously reported – A mysterious suspect planted two pipe bombs at the RNC and DNC DC Headquarters and safely detonated by a bomb squad on January 6.

The suspect planted the pipe bombs *on January 5*, the night before the Capitol riot.

The FBI continues to **drip out new videos** of the suspect who placed two pipe bombs at the DNC and RNC the night before the Capitol riot in **the months following the incident**.

This is the very first FBI whistleblower to step forward on suspected criminal behavior by the bureau that we have heard about in years. Only far-left FBI operatives have been leaking information and lies to the media since 2016.

Rep. Jim Jordan (R-OH) wants an FBI briefing on the matter.
