C-19 INJECTIONS NOW PROHIBITED – New ruling by Fair Work Commission

28 September 2022 3 min read

BREAKING NEWS

Fair Work Commission Determines that any sacking threat due to vaccine mandate non-compliance is substantial unlawful pressure and AUTOMATICALLY PROHIBITS C-19 INJECTIONS. Download template below!

Any injecting practitioner when presented with the ruling must IMMEDIATELY CEASE AND DESIST AND REFUSE TO INJECT. The case has now been lodged with Federal Court of Australia against Jetstar, Virgin and Qantas. Download template below.

UPDATE 28 Sept, 2022. For anyone seeking further advice from Glenn Floyd his website and email address can be found at <http://www.libertyaustralia.com.au/>

Further comment from Glenn as follows:

...Hi there, is there a copy of the determination available? Will this set a precedent for all employers? Thanks.

Page 13 paragraph 56 QUOTE: "Whilst the Direction did involve 'SIGNIFICANT PRESSURE' on the Applicant to become vaccinated". The 'significant pressure' determination is key, because an Injecting Practitioner MUST by law screen and even if any 'undue' pressure, coercion or manipulation to be injected is applied (such as a sacking threat) the injecting practitioner MUST refuse to inject by Immunisation Guideline Criterion 2 Federal law. <https://www.fwc.gov.au>

The Commissioner's remark about it not being unlawful pressure is immaterial, the ruling of FACT that it was 'SIGNIFICANT PRESSURE' automatically PROHIBITS the injecting practitioner injecting so the employer's sacking threat itself AUTOMATICALLY PROHIBITED the injecting practitioner injecting and when an employer puts a barrier on its own directive; it is an unlawful directive and breach of employment contract.

You can sue the medico for criminal medical negligence, and assault and battery where they were obligated at law to screen and determine if you were there under any pressure, coercion and manipulation to be injected.

There 'IS' a law that applies to employers. It is the Federal Health Department Federal Immunisation Guidelines Criterion 2 [Download](#)

They ALL MUST screen and determine if anybody attends under ANY undue Pressure, coercion or manipulation to be Injected (such as a sacking threat). Because they did NOT screen you and determine this, it is medical negligence, and the employer knew or ought to have known this law exists. Ignorance of LAW is no defence. So the employer actually placed a barrier on its own directive to be injected which is an unlawful directive. Any barrier placed by the employer on its own directive, is an UNLAWFUL directive.

The Australian Immunisation Handbook [Download](#)

THEY VOID THEIR PROFESSIONAL INDEMNITY INSURANCE IF THEY INJECT. THEIR HOME, CAR, MORTGAGE AND ALL ASSETS ARE AT RISK.

For further advice or guidance you may like to contact Serene Teffaha <https://www.advocateme.com.au/our-actions> or her associates. Serene is a true warrior and has been taking up human rights issues on behalf of thousands of Australians since these government crimes commenced.

THE 'GLENN FLOYD' VALID CONSENT TEMPLATE, TO LEGALLY AVOID VACCINES
'Free' to send it VIRAL!! Love & Peace Glenn Floyd Liberty Party of Australia

This Valid Consent template is produced to FORCE the injecting practitioner to refuse to inject you, & because 'THEY' refuse; YOU CANNOT be sacked because you complied & they refused!!

This is the law: Link > [The Australian Immunisation Handbook Criteria for Valid Consent: Criterion 2. Which clearly states that Valid Consent MUST be given voluntarily in the absence of ANY undue pressure, coercion or manipulation, & threat of sack is coercion AND manipulation!](#)

- 1. No practitioner at all can inject you, UNLESS you provide 'Valid Consent' with no coercion.**
- 2. Covid-Injecting Practitioners commit a criminal act of assault and battery, if they inject AFTER you notify them verbally AND in writing that you are appearing for the injection under undue pressure, coercion, or manipulation by the employer, by threat of employment termination (being sacked) if you are not injected.**
- 3. Once you notify you are being coerced by threat of sacking, they CAN'T LEGALLY PROCEED!**

At law this legally exonerates you, because you appeared for the injection, that the employer demanded, but 'THEY refused' to inject YOU & you did not refuse; & THEY CANNOT SACK YOU!!

So, DO THE FOLLOWING IMMEDIATELY:

1. Email your employer (this is official court evidence you MUST HAVE) that you will accept the Covid injection under threat of sacking & arrange an injection appointment on email & send the appointment details to your employer & present this template (under on page two), to the Injecting Practitioner in the appointment & put their full details on the page 2 first.
2. **SIGN THEIR INFORMED-CONSENT FORM & GET A COPY OR PHONE PHOTO!!!!**
3. Verbally say to the Injecting Practitioner the following: **QUOTE: "I AM CONSENTING TO THIS VACCINE UNDER SERIOUS THREAT OF BEING SACKED AND The Australian Government Immunisation Handbook Criterion 2. LEGALLY DEMANDS Valid Consent MUST be given voluntarily in the absence of undue pressure, coercion or manipulation" ENDQUOTE.**
4. Hand the Template on page two, to the Injecting Practitioner and say: **QUOTE: "You must read, agree and sign this template which shows your legal obligations under The Australian Immunisation Handbook 'Criteria 2. for Valid Consent' and if you inject me you are conducting Criminal Assault and Battery and will be criminally charged". ENDQUOTE.**

They will refuse to inject you and refuse to sign, and that is EXACTLY what you want! But they may sign it! But if they do not sign it, keep the copy that you offered them & sign and date it as proof & send a copy back to your employer PROVING YOU OBEYED THEIR INJECTION DIRECTIONS; & when it gets to court or the Fair Work Commission it shows they breached the Federal Fair Work Act 2009!

IF THEY ARE STUPID ENOUGH TO SAY THEY WILL INJECT YOU, LEAVE & REPORT THEM, IT IS A CRIME!

THEY CANNOT WIN & THIS PROCESS MAKES IT UNLAWFUL FOR YOU TO BE SACKED BECAUSE YOU DID NOT REFUSE THE INJECTION, THEY DID!

ALSO BE AWARE EVERY COUNTRY HAS THE SAME INFORMED CONSENT LAWS PROHIBITING INJECTIONS UNDER DURESS/PRESSURE/INTIMIDATION/COERCION, SO USE YOUR OWN COUNTRY LAWS!

Where do you join. The jab killed my wife. Family with young children demanded she be jabbed or not see kids. I have all documented including vaccine certificate. She hid it from me as I am anti-vax. She got first jab on my birthday. Second jab 5 weeks later! consequence Died 3 Months and 1 day later. I found her vaccine certificate the day the Queen died!

Hi all, i was terminated after refusing to provide the company with my immunization records. They have asked me twice via email which i still have. Termination occurred exactly on due time set by Vic government which was 15/10/2021 and while on sick leave (stress). My GP have also refused to provide information on possible side affects and who will pay for potential health issues. I have lodged complaint with fair work who at the time advised that due to me being on probation the company does not have to have any reason for my termination especially for claiming discriminations based on my immunization status. Since that time i have straggled to find employment as not one company wanted to employ me based on my vaccination status and i can only imagine how it looks to other companies seeing my resume that i haven't worked for last 9 months. Recently i have finally found some work on contract basis as other companies are still asking for vaccination records (despite gov dumping the mandate) i would appreciate if someone could let me know what i can do as i have nobody to turn to for help. Cheers

So, if I understand correctly, it is okay to be mandated or coerced to get the jab, but only illegal for the injecting practitioner to proceed if advised of the coercion. I am hoping that there will be a ruling to come that any employer who threatens an employee to get jabbed is also a crime, maybe as an accessory to commit a criminal act of assault and battery by a practitioner.

You only need to read the ruling to see that the case failed. Yes it is illegal to inject someone against their will, but you can coerce them and fire them for failing to comply.

Tom, agreed. The fact that the case failed, doesn't mean that people like Glenn and others can't continue to challenge the rulings based on new knowledge and insights gleaned from earlier attempts. The gates to the fort are broken down only after repeated battering. But it's become increasingly obvious that we now live in a Fascist state where the corporations wield the power over the people not the unlawful governments they created! One powerful, simple step we can all take is BOYCOTT, BOYCOTT, BOYCOTT. Unlike governments, businesses (corporations or otherwise) can't survive without revenue or cash-flow.

This is a headline that is not the panacea everyone thinks it is.

You either get jabbed or not. The problem is that while the ruling puts doctors on notice the FWC still stated that it was lawful and reasonable. Mandates continue at the behest of the corporations and rogue premiers so keep this in perspective. I have interviewed Glen on Club Grubbery many times. John and I will interview former Federal Court Judge Stuart Lindsay mid next week and he has a pretty rational in-sight into what's happening in the judiciary.

These are tough times and cool heads need to prevail. Graham Hood.

Good to see you're on the ball Graham. However, I salute Glenn's courage and persistence in driving through his interpretation of the determination resulting from his challenge to Jetstar. In my opinion, while there remains a glimmer of hope with any of these situations where the fraudsters working within their own fraudulent matrix are challenged let's give Glenn and anyone else willing to stand up, every support we can. Cool heads are prevailing as is hope, determination and courage within the Australian community.

Everything in this post has already been dealt with and put on the table in court cases and commissions. I have put forward all these points and conclusions as have others. They mean nothing.

Look up non derogable rights on ag.gov.au and see there is an international treaty prohibiting everything that is taking place.

<https://www.ag.gov.au/rights-and-protections/human-rights-and-anti-discrimination/human-rights-scrutiny/public-sector-guidance-sheets/absolute-rights>

<http://www.austlii.edu.au/au/other/dfat/treaties/1980/23.html>

People must realize the significance of a purported(appearing real though false) Government acting in contradiction to rights openly displayed on the website of the Attorney General. The judicial system is openly mocking the people.

When the keepers of the law operate openly in breach of the law the people have a duty to stand for that which is lawful. Being complicit with unlawful actions is not excusable for the judiciary, law enforcement or the people.

The imposition of the poisoning of humanity is instigated from a higher source than the courts, tribunals and commissions the public interact with. All the orders, directives, acts and statutes are taken to be lawful unless proven not to be in another "place". This other "place" has to be above the satanic order followers who appear to be judges, commissioners etc, with the guise of authority but not actual authority.

People must look to themselves as the answer.

There is no solution within a criminal judicial system operating unlawfully with void regard for the Commonwealth of Australia Constitution Act 1901 as proclaimed and gazetted which is the very document relied upon for their existence. Whereas the people are the supreme, absolute and uncontrollable power except when the people are looking for someone or something to come and save them.

We have the evidence, we have the documentation but the people would rather beg their oppressor for relief than making a stand, maybe putting yourself at risk, and defying the unconstitutional criminal cabal led by enemies of the people.

Doctors are being blackmailed into giving a death shot, but they are doing this rather than lose a dollar. How many dollars is your children's potential future worth? You can only have what you can hold.

People want freedom but they want someone to give it to them, really?

Local councils, the judiciary and the enforcement through police and military are all under the control of those who are poisoning the population.

We have the evidence of the fraud against the people being led by the politicians but will people take responsibility, read it, then stand as the supreme, absolute and uncontrollable power?

It seems not. Complaining, crying and begging for relief rather than standing and taking action is the order of the day.

The solution is up to the people and non-compliance with unconstitutional, unlawful criminal cabals. If you cannot see it now, you never will.

Twice a week, Wednesday and Thursday nights from 7:30pm New South Wales time, zoom meeting link (<https://zoom.us/my/loregroup>) we demonstrate the fraud perpetrated by the unconstitutional political parties. We show the evidence of the unconstitutional changes to legislation and process of our Commonwealth of Australia Constitution Act 1901 as proclaimed and gazetted carried out by unlawful corporations posing as a legitimate Government.

Complaining to the school bully never stops the bully, you have to punch him in the stomach and watch the coward cry in front of those he has tormented. The evidence we have is overwhelming but the people are underwhelming.

Do we deserve the freedom from overbearing Government which the Commonwealth of Australia Constitution Act 1901 as proclaimed and gazetted provides? The actions of the people begging the oppressor to stop suggest not. I believe we are morally superior to the pharmaceutical industry and international cabal committing this decimation upon the populations of the world and people find it hard to believe this evil being paraded in front of us under the disguise with the persona of caring.

We are being held prisoner by our lack of ability to accept the fact others do not possess our morality and are capable of the atrocities being committed.

We are the change we are looking for.

Silent weapons for quiet wars, war is being waged against us.

This is another tool to help people defend and attack. With regard to the corporations, Glenn stated that he and his people have now lodged a case with Federal Court of Australia against Jetstar, Virgin and Qantas. Medico's can now be sued for criminal medical negligence, and assault and battery where they were obligated at law to screen and determine if you were there under any pressure, coercion and manipulation to be injected. THEY VOID THEIR PROFESSIONAL INDEMNITY INSURANCE IF THEY INJECT. THEIR HOME, CAR, MORTGAGE AND ALL ASSETS ARE AT RISK. So instead of sitting there expecting everyone else to do things for you, what do you plan on doing about it Marek?

The problem I see is this may only help those NOW getting threatened. Those of us that have already been sacked, don't have a leg to stand on. We cannot backtrack our letters to the doctors i.e we cannot go to the doctors and follow the instructions above if we were sacked over a year ago. Then approach our ex place of work as we have already been terminated.

Then even if we did I can guarantee nothing will happen. I was a manager at Coles and they have already stated regardless of government ruling they will not be removing the mandate. Most of us have exhausted our savings and have nothing left to fight with. Lawyers are not cheap and I think we will be hard pressed finding anyone to fight this let alone for free long term.
