

Future

KNOWLEDGE ECONOMY

This economy could provide pathways to a smart city powered by innovation and technology, centred around a hub for research and development.

Future

WELLBEING ECONOMY

This economy could provide pathways to a healthy city powered by the mind and body, with an active lifestyle supported by fresh local produce.

Future

CULTURAL ECONOMY

This economy could provide pathways to a culturally rich city powered by creative designers, producers, and makers, where people celebrate diversity and inclusion.

Future

REGENERATIVE ECONOMY

This economy could provide pathways to a net positive city powered by renewable energy, where people and businesses leave the world a better place.
