World Leaders Commit To An Agenda That Lays The Foundation For New 'Global Governance'

By DAVID BOWEN | OCTOBER 14, 2024

f x e p m b in

DAVID BOWEN

On September 22nd, world leaders met at the UN Headquarters in New York City. The result was the adoption of the "Pact for the Future," which lays the final pieces for their "New World Order."

The "Pact for the Future" is a 56-page document that our leaders just committed us to. The centerpiece of this agreement is designed to "steer humanity on a new course." This is a global agenda that literally covers just about every aspect of daily life. The UN describes the Pact as a "landmark declaration" pledging action towards an improved world for tomorrow's generations. The agreement adopted by 193 members includes a pledge to move faster towards achieving the UN's Sustainable Development Goals (SDGs) and the Paris Agreement commitments on climate change.

Seven Countries Oppose

This game-changing "Pact for the Future" was overwhelmingly approved except for a small group of seven countries that tried but failed to pass a last-minute amendment. Why was there opposition, and who opposed it? Russia, Iran, North Korea, Belarus, Syria, and Nicaragua introduced a last-minute amendment to the draft, which revolved around the role of external entities having a say in their domestic affairs. In short, these countries do not want outside influences dictating what they have to do inside their borders. With their amendment failing, Russia responded by saying they would "distance themselves from this document."

You would think an agreement of this magnitude would be the lead on every news broadcast and headline across the globe. However, this news was pretty much ignored by the Mainstream Media, especially here in the West. Most people I have asked have never heard of the "Pact for the Future," which is interesting because, with this lack of knowledge, there was very little concern about whether or not we should commit to an agenda that lays the foundation for a "New World Order."

CORRUPTION

Scientists File Lawsuit Against Journal For Retracting Studies On The Dangers Of Abortion Pills

The suit alleges that the studies were pulled, not because of bad science or "any legitimate objection to any of the findings," but because the journal "put politics over publication ethics and blatantly disregarded the principles of open inquiry and commitment to science."

DISTRESS OF NATIONS

In-depth: The Message Of Hurricanes and The Unheeded Calls For National Repentance

I don't think there is any doubt that our national sins have called down remedial judgments from God. But what I think we may have failed to realize is that since 1991, many of the judgments we have experienced have been directly related to our mistreatment of Israel.

Global Digital Compact

On September 22, 2024, the United Nations posted this announcement on its website: "World leaders today adopted a Pact for the Future that includes a Global Digital Compact and a Declaration on Future Generations."

Time out! What is the Global Digital Compact? Reading directly from the UN website, this Global Digital Compact (GDC) will:

- Close all digital divides and deliver an inclusive digital economy
- Connect all people, schools, and hospitals to the Internet
- Make digital technologies more accessible and affordable to everyone, including in diverse languages and formats
- Build an inclusive, open, safe, and secure digital space
- Promote and facilitate access to independent, fact-based, and timely information to counter mis- and disinformation
- Establish an international panel on AI and a global AI policy
- The GDC calls for leveraging digital innovations to advance the Sustainable Development Goals.

Deliver an Inclusive Digital Economy

Did you catch some of those keywords? They are going to "deliver an inclusive digital economy." They are going to connect ALL people, kids (schools), and hospitals (which will be your personal medical records) together on the Internet. They will facilitate access to information, control misinformation and disinformation, and prevent it from getting out. Which means they will censor ANYONE who disagrees with their agenda.

They are going to create an international panel to form a global AI policy, which means they will use AI to control everyone globally! This agreement will advance their Sustainable Development Goals, which means ESG scores, 15-minute cities, electric vehicles, digital IDs, and digital currency will all be fast-tracked globally.

Combatting Digital Misinformation

This document says they will be "combatting digital misinformation: Governments and tech companies must work together to combat misinformation, hate speech, and cybercrime through regulations, transparency mandates, and real-time monitoring systems."

Question: What will be considered hate speech? Answer: Anything that takes a Biblical stance, especially anything concerning marriage and gender.

Sustainable Technology Practices

Another section of this agreement is Sustainable Technology Practices. What does that mean? It means governments will now have the green light to "advocate for green technology" and to "contribute to the fight against climate change," which means they will do whatever they wish in the name of climate change.

Universal Connectivity

This agreement says another "Key Principle of the GDC" is "Universal Connectivity," meaning access to the Internet will now be seen as a fundamental human right. Having the Internet is now a human right! Why? Because they need it to control all aspects of human life. Meaning they need the world to be digital! We can't feed everybody in third-world countries, but by golly, they will have digital access. The UN will make sure they have Internet over food.

After this agreement was signed, the UN released the following statement on their website:

This Pact is the culmination of an inclusive, years-long process to adapt international cooperation to the realities of today and the challenges of tomorrow. The most wide-ranging international agreement in many years, covering entirely new areas as well as issues on which agreement has not been possible in decades, the Pact aims, above all, to ensure that international institutions can deliver in the face of a world that has changed dramatically since they were created.

The President of the General Assembly said the Pact would "lay the foundations for a sustainable, just, and peaceful global order—for all peoples and nations." In layman's terms, this agreement will transform our planet into a one-world government! The Secretary-General called this agreement "UN 2.0" and said the world is now a modern UN family—a global family.

FEATURED

It's Not The Power Of Israel Or America That Has Changed This War —It Is The Power Of God

If you take all the rockets that fell on Israel from the beginning of the war and all the ballistic missiles that flew from Iran – both times – and you accumulate all their power to kill, then you look at how many Israelis actually were killed, it doesn't even make sense. Just like the birth of Israel doesn't make sense to some people, so the survival of Israel doesn't make sense to others. My only explanation is that the effective and fervent prayer of a righteous person avails much.

Turbo-charge the Implementation of Their Sustainable Development Goals

The UN now openly says that the "Pact for the Future" was specifically designed "to turbo-charge the implementation of their Sustainable Development Goals." Again, their website states:

Halfway through the 2030 Agenda, the world is not on track to achieve the Sustainable Development Goals. It is not too late to change course if we all rethink, refocus, and recharge.

In layman's terms, what this statement is saying is that they plan to regulate and control all forms of daily life. The "Pact for the Future" will play a more "central role of the United Nations for the global population." In layman's terms, "you will own nothing, and you will be happy!"

The Declaration on Future Generations

Along with the "Pact for the Future," the UN also sealed another agreement called "The Declaration on Future Generations." This is designed to pave the way for a sustainable future. In layman's terms, our kids and grandkids will not be able to reverse or get out of the agreements governments are putting in place today. As they say, the goal is to influence global policy and actions for future generations.

State of Palestine

All of this may sound good to some, but let's not forget this is the same body of decision makers—the UN General Assembly—who just four days earlier, on September 18th, voted to hand the Old City of Jerusalem, home to Judaism's holiest sites, to what it calls the "State of Palestine." They voted to remove Jews from Jerusalem! This action included a demand that Israel withdraw "all its military forces from the Occupied Palestinian Territory, including its airspace and maritime space." In addition, all countries were asked to boycott Israel both diplomatically and economically.

According to Scripture, this decision will be their downfall and will end in their own demise. God has said:

- "I will bless those who bless you [Israel], and him who dishonors you I will curse" (Genesis 12:3).
- "For thus said the Lord of hosts, after his glory sent me to the nations who plundered you, for he who touches you [Israel] touches the apple of his eye." (Zechariah 2:8).
- For behold, in those days and at that time, when I restore the fortunes of Judah and Jerusalem. I will gather all the nations and bring them down to the Valley of Jehoshaphat. And I will enter into judgment with them there, on behalf of my people and my heritage, Israel, because they have scattered them among the nations and have divided up my land" (Joel 3:1-2).
- "But now thus says the Lord, he who created you, O Jacob, he who formed you, O Israel: 'Fear not, for I have redeemed you; I have called you by name, you are mine. When you pass through the waters, I will be with you; and through the rivers, they shall not overwhelm you; when you walk through fire, you shall not be burned, and the flame shall not consume you. For I am the Lord your God, the Holy One of Israel, your Savior'" (Isaiah 43).
